NARESH KUMAR G

JAVA / FULL STACK DEVELOPER | SOFTWARE ENGINEERING

Chennai | +91 9940171486 | nkpraabi2101@gmail.com | Portfolio | GitHub

PROFESSIONAL SUMMARY

Computer Science Engineering (Artificial Intelligence & Machine Learning) graduate and fresher seeking an entry-level Java / Full Stack Development or Software Engineering opportunity. Strong foundation in Core Java, SQL, HTML and problem solving, with knowledge of full stack development concepts and practical academic project experience. Also familiar with software testing and API tools including Postman, Swagger and Karate.

TECHNICAL SKILLS

Programming: Java, Python, SQL, HTML

Development: Java Full Stack Concepts, Software Development, Problem Solving

Frontend: HTML, Web Development Fundamentals

Backend: Java

Database: SQL

Testing & API: Manual Testing, Functional Testing, API Testing, Postman, Swagger, Karate

AI / ML: Machine Learning, Gradient Boosting, Disease Prediction

Tools: Power BI

PROJECTS

Disease Prediction System Using Machine Learning

- Developed a machine-learning based disease prediction system using symptom-based input data.
- Implemented Gradient Boosting for disease classification and explored Random Forest as an additional model.
- Worked on data preprocessing, model training, prediction and evaluation.
- Applied programming and machine-learning concepts to develop a practical healthcare-related application.

INTERNSHIP

Student Intern — Pydun Technology, Madurai | 2025

- Assisted with a machine-learning project focused on disease/drug prediction.
- Worked with Python for data processing and model-related tasks.
- Created Power BI dashboards to present project insights.
- Gained practical exposure to software-related project development, Python, machine learning and data analysis.

EDUCATION

B.E. Computer Science and Engineering (Artificial Intelligence & Machine Learning) — AMET University | 2022 – 2026

HSC & SSLC — Sri Ramakrishna School | 2019 – 2022

CERTIFICATIONS

Java Programming — IBM • Python Programming for Problem Solving — IBM • Development of Machine Learning Models — IBM • Predictive Modeling — IBM • AI Services — IBM • AI Analyst — IBM • Data Visualization Using Python, R and Watson — IBM • DevOps / Design Thinking / Agile — IBM • Machine Learning for Soil and Crop Management — NPTEL
